A MAN OF UNBENDING RECTITUDE

Editorial, New York Evening Post (Ind. Dem.) September 5, 1916.

Mr. Hughes's speech at Nashville may well prove to be the turning point of his campaign. By this we do not mean that it will determine, or even that it will determine, or even that it will directly go far towards determining, the result of the election. Voters will divide on many issues, more or less definite; they will be influenced by many inpulses of sentiment or of habit, upon which Mr. Hughes's declaration on the question of the snap-judgment "eight-hour" legislation will have little influence, either favorable or unfavorable. But there is one issue upon which the conduct of the Republican candidate in the presence of his Nashville audience has a decisive bearing. That issue is the personality of the candidate himself. It was upon that issue, be it remembered, and upon that issue, be it remembered, and upon that issue alone, that he was noninated; it was not owing to his special views on any particular question, but to his character and record as a public servant. owing to his special views on any particular question, but to his character and record as a public servant deserving of the highest trust, that he was preferred above all other as.

TRUE HAIR GROWER

Judgment, His campaign has not been an impressive one; it has fallen far short of what it might have been. But in the light of what Mr. Hughes has now done, both in relation to deserving of the highest trust, that he was preferred above all other aspirants by the unmistakable voice of the party. And it has been an almost incredible misfortune to him that up to vesterday this element in his can lowing your hair to turn gray?

The labor vote and to the German American vote, the most damaging criticism upon his campaign falls to the ground completely. His bearing in regard to the subject of Germany lowing your hair to turn gray?

And the like of the party. And it highest travel. It has been an almost the party. And it has been an almost the party in the four has been almost the party. And it has been an almost the party in the four has a partition of the party and the party of an almost party of an almost the party of almost the party o

WORKING TOGETHER

Are Republicans in Bluefield, Following Visit of Judge Ira Robinson.

Ira Robinson.

BLUEFIELD, Sept. 21.—The visit here last week of Ira E. Robinson, Republican nominee for governor, has had a most wholesome effect. His preachments on party duties made a number of doubters sit up and take notice. The "boys" are working together better than they have in the last several campaigns, and everyone is talking about the necessity of voting the straight ticket. When Judge Robinson comes back here to make a few speeches he will find averyone waiting. He will be given the finest reception that has ever been accorded a candidate for state office.

Congress into passing whatever measure he dictated, the single exception being the shipping bill which Congress would not stand for in the form it was drafted by McAdoo, but which it did pass in emascuated form at the dictation of Mr. Wilson. Although sworn to uphold the constitution, Woodrow Wilson has converted the presidency into an absolute autocracy.

A Texas View.—"I believe in a tariff to protect our manufacturers, and I believe in a tariff to protect our manufacturers, and I believe in being the shipping bill which Congress into passing whatever measure he dictated, the single exception being the shipping bill which Congress would not stand for in the form it was drafted by McAdoo, but which it did pass in emascuated form at the dictation of Mr. Wilson. Although sworn to uphold the constitution, Woodrow Wilson has converted the presidency into an absolute autocracy.

A Texas View.—"I believe in a tariff to protect our manufacturers, and I believe in business protection. That's where Germany got ahead. I haven't any patience with this so caled war tax. It's nothing but a deficiency revenue tax. We Democrate have snipped off too much of the tar-iff. Now it must be put back. If we have snipped off too much of the tar-iff.

American Institute of Mining Engineers.

GLOBE, Ariz., Sept. 21.—Possible means of developing the flotation pro-

Conclusions gates, who include representatives of many of the leading metal producing companies of the country, were to the effect that the flotation process is now in its infancy and that with the further discovery of new flotative agents and generous expenditures a brilliant future record could be obtained for this

Today's discussions included the first public presentation of a report of experiments on several miscellaneous wood oils which seem adaptable to use in the flotation process. A statement of some of the values of these oils was presented by R. C. Palmer, of Madison, Wis.; Glenn L. Allen, of the Shattuck Arizona Copper Company, and O. C. Raiston, of the United States Bureau of Mines.

During a part of today the mining experts descended many hundred feet into the mines of Old Dominion Copper Company, and later visited the reduc-Are You Looking Old?
Old age comes quick enough without inviting it. Some look old at the evening technical sessions are to held.

DISSAISFTACTION

Among Monroe County Republicans Rapidly Disappearing, Says Fleshman.

RED SULPHUR SPRINGS, Sept. 21. Rufus Fleshman says Republican prin-ciples must prevail and that all the Monroe county Republicans will com-bine in having that county do its part. He said there had been some dissat-isfaction, but that this is rapidly disappearing.

Like many other party leaders in this county, Mr. Fleshman was in-terested in learning that John Cornwell is vigorously opposed to anything well is vigorously opposed to anything that looks like a power dam. On the other hand, Judge Robinson is quoted as saying "I am in favor of the development of the water power of the state, with two considerations always in view; scientific principles applied for the protection of the citizens and a distribution of the citizens an just return of revenue to the public,"
